AFMACO

Established in 2002, Saudi Arabian Steel Can Manufacturing Company is dedicated to producing premium quality products and maintaining perfect customer satisfaction. We specialize in manufacturing an extensive range of steel cans and steel packaging solution. Every day our products are used by thousands of people in many countries around the globe. Through our consistency in manufacturing products of exemplary quality, we are the preferred suppliers to many of the leading companies in the local and international markets.

MISSION

When established in 2002, we at the Saudi Arabian Steel Can Manufacturing Company have decided that our primary directive should be to produce premium quality products in addition to providing and maintaining perfect customer satisfaction. Today we are determined that Reputation, High Quality Standards and Prominence are more than intangible assets to our manufacturing facility. We consider them to be the perspectives that drive us toward sparing no time or effort to achieve our ultimate goal of providing best quality for the best price.

VISION

Starting with very simple production capabilities, we foresaw the goal of growing to become one of the largest Steel Cans Manufacturers and suppliers in the region whilst keeping in mind that our Brand and Products are Quality and Trust.

Products & Services

Delivering excellence for our customers.

We have an extensive range of Steel Cans. In addition, we manufacture all of our components such as aloe peel off lids, bottom ends, aerosol cones and domes.
